To Whom It May Concern:

The Loyola University Chicago Health Sciences Campus (LUC HSC) Institutional Review Board for the Protection of Human Subjects (IRB) has determined that projects involving a single case report do not meet the definition of research according to 45 CFR 46.102(I).

The LUC HSC IRB does not require review for case reports that involve a single patient. A case series, more than a single patient, meets the definition of human subjects research and requires the submission to the LUC HSC IRB for review and approval.

Sincerely,

A handwritten signature in cursive script, appearing to read "B Muneer", is written over a horizontal line.

Bushra Muneer, Pharm.D.
Clinical Pharmacist
Chair, Institutional Review Board
